

BUILDING AN ENERGY FUTURE FOR AFRICA

CONNECTING THE DOTS THROUGH STRATEGIC ENERGY CONNECTIONS

Through the Africa Energy Indaba Business Matchmaking Programme, the Africa Energy Indaba assists investors and energy stakeholders with catalyzing new businesses and projects, meeting the right partners, connecting with key stakeholders who can make your business successful and mitigating the legal and regulatory risks that threaten project bankability.

This is done through pre-arranged one-on-one private business meetings that take place annually at the Africa Energy Indaba. As the continent's premier energy event known for its exclusive content and delegates, this is the place for on-target meetings with the energy decision makers shaping Africa's energy future.

BACKED BY LEADING ENERGY ORGANISATIONS, EXCLUSIVE TO AFRICA ENERGY INDABA

With strategic partnerships with the World Energy Council, the South African National Energy Association and the NEPAD Planning & Coordinating Agency to name a few, the Africa Energy Indaba enjoys the backing of leading energy organisations. These partners influence the event content and send their representatives to take part at the event, setting the event apart from those who are only able to attract middle-level management.

AFRICA IS THE NEXT INVESTMENT FRONTIER FOR ENERGY

Africa is the continent of opportunity for the serious energy investor. With vast natural energy resources ranging from coal, oil, gas, hydro, solar, wind and geothermal, there is ample choice for the discerning entrepreneur.

Access to electricity means access to opportunity and the chance for Africa to reach its economic potential. With an increasing number of urbanizing youth and above average growth rates, Africa's middle classes are ready to exercise their buying power. But with almost two-thirds of the continent still in virtual darkness, opportunities have remained out of reach; millions of people simply don't have the power to enjoy the basic activities that will improve their living standards – healthcare, education, commerce and industry.

TOPICS TO BE DISCUSSED AT THE 2017 AFRICA ENERGY INDABA

- Increasing regional trade and regional integration in the African energy sector
- What is the future energy mix for Africa
- How to attract the funds to finance the African energy sector and development
- Prospects for growth in the African energy sector
- Cost reflective tariffs
- Gas to Power
- Energy Access in Africa
- Energy Security in Africa
- How far and fast will distributed power generation grow?
- Resilience: Weather / cyber crime
- The role of development funds in overcoming the challenges in the African energy sector
- Technical innovation in the African energy sector
- Maximising the Renewable Energy potential
- What will the African energy sector look like in 2030?
- The role of Power pools and inter connectors and the business opportunity attached to them
- The African Nuclear opportunity
- African Utility Forum

WHO SHOULD ATTEND THE AFRICA ENERGY INDABA AND WHO WILL YOU MEET?

-  • African Utilities
-  • African Energy Regulators
-  • Oil and Gas Companies
-  • Renewable energy companies and IPPs
-  • Government & Municipality representatives
-  • Project Developers / Consultants / Analysts
-  • Environmental Engineering
-  • Equipment & Technology Solutions
-  • Banks / Investors / Insurance
-  • Automotive & Transport
-  • Green Energy
-  • Commodity Traders / Agents & Brokers Legal Advisors
-  • Industry Associations & Press

THE EXHIBITION

The Africa Energy Indaba Exhibition is highly relevant to companies actively involved in all areas relating to showcasing solutions for the benefit of Africa. This extends to services for major energy projects on the continent, rural energy solutions, urbanization and energy needs and the renewable & sustainable energy industry and the management thereof.

By participating as an exhibitor you have an opportunity to promote your company to business counterparts, international investors, buyers and governments worldwide.

This showcase will provide a platform for companies to demonstrate their commitment to provide the much needed solutions and services that will enable the African continent to embrace the challenges arising from current and future energy demands.

EXHIBITOR PROFILE

-  • Governments, development institutions & DFIs
-  • Utilities & regulators
-  • Country pavilions
-  • Power generation
-  • Oil & natural gas
-  • Hydro & solar
-  • Nuclear power
-  • Wind (onshore and offshore)
-  • Wave, tidal
-  • Geothermal technologies & developers
-  • Natural gas
-  • Biofuels
-  • Financial Services
-  • Environmental, Construction & Project Financing
-  • Energy Management & Integrated Building Automation
-  • Energy Efficiency & Conservation
-  • Lighting Efficiency
-  • Smart Metering
