AFRICA 2017

Machine Tools Africa to showcase latest technology developments

Quality tools and machinery are the backbone of the South African manufacturing industry which is why Machine Tools Africa 2017 has been designed to showcase the very latest technology developments, machinery, products, services and solutions in this innovative sector.

Taking place at the Expo Centre in Johannesburg from 9-12 May, the exhibition will bring machinery alive through the daily demonstrations and interactive displays. On view will be equipment in machining such as turning and milling, grinding and drilling, as well as all types of sheetmetal machinery, laser, plasma cutting, bending and punching and presses. Also exhibiting will be various suppliers of Tooling and CAD CAM software who are an integral part of the successful machine shop.

Says Gary Corin, Managing Director at Specialised Exhibitions Montgomery, organisers of the show: "Machine Tools Africa is bringing the quality of this industry sector to the forefront by showcasing the latest in innovative technology. Engineers are going to find real value-add at the show as well as those additionally involved across the various sectors such as general mechanics, machine tools, mining, manufacturing, automotive, metallurgy, paper, pulp, research and engineering, aeronautics, aerospace, railways, energy, electronic and IT."

Earn CDP points at the Free-to-attend technical seminars hosted by the South African Institution of Mechanical Engineering (SAIMEchE).

This is an opportunity for Italian machine tools suppliers to showcase their innovative capabilities, the high-tech value of their products and their reputation for flexibility. Going global is keeping the Italian machine tool industry strong and exhibiting at Machine Tools Africa opens the door for further building an African footprint.

Specialised Exhibitions Montgomery is a member of the prestigious Montgomery Group, one of the most widely respected exhibition companies in the world with trade shows, consumer shows and specialist projects currently spanning Europe, the Middle East, Africa and Asia.
