

CAMERA DI COMMERCIO ITALO SUDAFRICANA
ITALIAN SOUTH AFRICAN CHAMBER OF TRADE AND INDUSTRIES

Johannesburg, September 17th, 2014

SEAFUTURE 2014, FROM 9 TO 10 OCTOBER, THE INTERNATIONAL EVENT DEDICATED TO THE TECHNOLOGY OF THE SEA

SEAFUTURE 2014 is an opportunity to start a new trade/industrial partnership, to meet possible clients/buyers, to make your company international, to develop your product, to find a proper site in La Spezia and to confirm your business in the nautical, shipbuilding and marine technology marketplace.

SEAFUTURE 2014 will take place during the 9th and 10th of October and, thanks to the cooperation with the Italian Navy, it will be organized inside the La Spezia Navy Base. The relationship with the Distretto Ligure delle Tecnologie Marine – DLMT in the exhibition, which is in its 4th edition, will be characterized by the high level of internationalisation and integration among enterprises, research and training.

This year, the focus towards international markets is in the markets of Turkey, South Africa, India, Brazil, Algeria, Tunisia and Northern Europe. The countries identified, taking into account the specific business opportunities that they offer in the field of sea technology, will be the countries to which the foreign companies will exhibit their products, they will also have the opportunity to meet Italian companies.

The Italian-South African Chamber of Trade and Industries is selecting local players who will take part in representation of South Africa.

Focus / Defence refitting – project 'Overhauling & refurbishing'

The idea of proposing this new integrated format of the event dedicated to the world of defence, arises from the need to seize business opportunities and real specific needs in this area today.

This event offers an extremely different vision, as there is no longer an automatic link between the purchasing power of National governments and the allocation of new aircraft / ships / vehicles and equipment.
